

KAVISANAH KANAKESHWARAN

Software Engineering Intern

+94 763 278 153 · kanakeshwarankavisanah@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#) · Colombo

SUMMARY

Third-year Software Engineering undergraduate at the University of Kelaniya with solid hands-on full-stack development experience. Proficient in building end-to-end web applications using Spring Boot, React.js, Node.js, and Docker, with a focus on scalable architecture, REST APIs, and secure role-based access systems. Eager to contribute to a collaborative, fast-paced engineering team.

EDUCATION

University of Kelaniya
B.Sc (Hons) in Software Engineering | GPA: 3.74 / 4.00
G.C.E Advanced Level Examination
Chemistry – A | Physics – C | Combined Mathematics – B

April 2024 – Present

2022

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML & CSS, C, PHP
Frameworks & Libraries: Spring Boot, React.js, React Native, Node.js, Express.js, Next.js
Databases: MySQL, MongoDB

Security & Auth: JWT, Spring Security, Role-Based Access Control
AI & APIs: Groq API, REST APIs
Tools & Platforms: Git & GitHub, Docker, Postman, Vercel

PROJECTS

AI Interview Coach
Individual Project | React.js, Node.js, Express.js, MongoDB, Groq API, Tailwind CSS | [Source Code](#) | [Live Demo](#)
• Built a mock interview platform that parses uploaded resumes and uses the Groq API to generate dynamic, role-specific interview questions tailored to the candidate's profile
• Deployed publicly on Vercel with personalised, actionable feedback to improve users' technical communication and interview readiness

MediRemind
Individual Project | React.js, Tailwind CSS, Spring Boot, Spring Security, MySQL, JWT, Docker | [Source Code](#)
• Developed a secure, role-based platform with JWT authentication and Spring Security, featuring automated email reminders via Spring Scheduler and a patient health activity dashboard
• Integrated the Groq API (Llama 3) to enable intelligent medicine search, dynamic drug-to-drug interaction warnings, and natural language schedule parsing in a fully responsive React frontend

Book Fair Management System
Group Project | React.js, Spring Boot, Tailwind CSS, Framer Motion, JWT, MySQL, ZXing | [Source Code](#)
• Implemented JWT authentication with role-based access control and QR-code entry verification sent to vendors via email
• Designed an admin dashboard for real-time stall tracking, reservation management, reporting, and refund processing

SOFT SKILLS

Strong Problem-Solving Skills
Collaborative Team Player
Effective Communication

Quick Learner
Adaptability & Flexibility

LANGUAGES

English – Proficient

Tamil – Native
